

**The Society of Friends of the HMTMH wish all our
new students a hearty welcome to Hannover!**

Our Society supports the HMTMH as one of the world's leading institutions for cultural education. Our support and assistance applies to all levels, concentrating on our talented students.

What might this mean for you?

The Society has programs designed to provide a wide range of assistance:

- We provide financial aid to students for specific purposes and on a scholarship basis
- We support projects that involve extraordinary costs going beyond what you can bear and at the same time contributing to the visibility and reputation of the University.
- We'll help you with practical matters such as finding living accommodations, signing contracts (e.g. rental contracts), finding practice rooms, dealing with the local authorities
- Members of the Society love to show new students around the city and help you get acquainted here
- Do you need child care? We can help here, too
- We'll help you to improve your German language skills.

More information is available in our office. Please get in touch with Ms. Hilke Manthei – she looks forward to meeting you!
